Numerical labels  
Alphabetical labels

# Internal components

Bulk Filers are generally fitted with a variety of internal components to accommodate any type of office filing and stationery.

These internal components are inter-changeable and are chosen depending on your filing requirements.

Each of these components has a specific function:

- Shelf - for general use.
- Shelf Dividers - for general book or file support.
- Pull out Cradle - for top retrieval of A4 suspension files.
- Suspended Cradle - for Foolscap front retrieval files.
- Pull out Drawer - for A4 containerised filing.
- Lockable Stationery Drawer - for office stationery:
- Pull out Working Shelf - for general work use.
- Lockable Shelf Door - for securing valuable items.
- Wire Rack - generally to stabilise lateral files.

# Bulk filing

Bulk Filers are widely used in open plan office spaces, filing rooms and storage rooms.

The popularity of a Bulk Filer, lies within its intelligent design, a moving or mobile shelving

When compared to traditional static shelving, the bulk filing unit will offer the same amount of storage capacity in approximately 50% of the floor space. The more bays a Bulk Filer has, the more space percentage is saved.
